

Spring 2002

UPDATES F.Y.I.

In the near future you will be receiving **Champion's** new an exciting color brochure containing a wealth of product information and sales aids.

Our totally new reference manuals are well on their way to completion, and scheduled to be in your possession by this summer.

NEW! Legend 9500, Heavy Commercial HC-45 (101-IS2-97 AAMA Spec.) version of our exclusive patented Legend 9000.

NEW! Century 6200, Dual glazed version of our 6500 41/8" frame HC-65 AW-55 High Performance Window.

The **Champion** Fast Track Program is now in effect; windows will be delivered 2 weeks from the placement of orders. The program includes the 2500 Tilt and the 2000 Slider in stock material and colors. 10-window minimum for delivery, 30 window maximum per customer. Acknowledgements to be confirmed within 48 hours.

Shop drawings are available at a nominal charge for your convenience by our in-house draftsman.

Orders for all window and door series are being processed with interior Tip To Tip (make size) dimensions. Refer to the product chart for the specific size options.

Standardized casement fin sizes are being offered allowing broader installation options.

Snap trim options are being increased. (Check when ordering for in-stock or special order sizes).

The 2510 Fixed (PW/Transom) will now longer have exposed screws on the glazing bead trim.

We will not be providing head expanders now that we offer so many size options. (Available by request for a nominal charge).

Champion's new directions, product and system offerings are for your benefit and sales growth. We look forward to hearing your comments and questions. We're here to help you, our values customer.
